Molecule Membrane Biology

Volume 14 Number 1 January–March 1997

Contents

Hypothesis

Postulate for the molecular mechanism of the vacuolar H^+-ATPase (Hypothesis)
M. A. Harrison, M. E. Finbow and J. B. C. Findlay 1

Papers

Drug-induced transmembrane lipid scrambling in erythrocytes and in liposomes requires the presence of polyanionic phospholipids
Carole Moreau, Jean-Claude Sulpice, Phillippe F. Devaux and Alain Zachowski 5

Channel activity caused by a *Bacillus thuringiensis* δ-endotoxin preparation depends on the method of activation
Damian P. Smedley, Graham Armstrong and David J. Ellar 13

Fluorescence spectroscopic study of the interaction of saporin with phospholipid vesicles
Q. Hao, T. Ding, Y. Zhang, G. Liu, L. Yan, G. Gao, G. Yan, Q. Yao and Q. Li 19

Mutual modulation of sphingomyelinase and phospholipase A_2 activities against mixed lipid monolayers by their lipid intermediates and glycosphingolipids
Maria L. Fanani and Bruno Maggio 25

Comparative study of the fluidity of plasma and disc membranes of bovine rod outer segments by electron-spin resonance
H. Vezin, D. Daveloose and J. Viret 31

On the accessibility of phosphatidylglycerol to periodate in *Escherichia coli*
Richard P. H. Huijbregts, Anton I. P. M. de Krron and Ben de Kruijff 35

Book reviews

Biomembranes, Volumes 2A and 2B. Rhodospin and G-Protein Linked Receptors. Edited by A. G. Lee (Ted Maden) 39

Molecular Dynamics of Membranes. Edited by Jos A. F. op den Kamp (Peter Quinn) 40

Ion Channels—Molecules in Action. By D. J. Aidley and P. R. Stanfield (Jochen Roeper) 40

Biological Membranes: A Molecular Perspective from Computation and Experiment. Edited by Kenneth M. Merz Jr and Benoit Roux (Chris Dempsey) 41

Calender of events 43

Volume 14 Number 2 April–June 1997

Contents

Reviews

Membrane insertion: the strategies of toxins (Review)
C. Lesieur, B. Vécsey-Semjen, L. Abrami, M. Fivaz and F. Gisou van der Groot 45

Protein kinase C: an example of a calcium-regulated protein binding to membranes (Review)
Marian Mosior and Richard M. Epand 65

Papers

Gel filtration chromatographic studies of the isolated membrane domain of band 3
J. M. Salhany, K. A. Cordes and R. L. Sloan 71

Heparin binding protein-44 (HBP-44)/receptor-associated protein (RAP) mediates cell-substratum adhesion of mouse NIH/3T3 cells through its binding to low density lipoprotein (LDL) receptor-related protein (LRP)
H. Terada, J. Tsutsui, J. Sanada, T. Arima and M. Ozawa 81

Method

Determination of viral neuraminidase specificity for membrane-bound sialic acids by cell electrophoresis
Ulrike Gimsa and Jan Gimsa 87

Book reviews

Annexins: Molecular Structure to Cell Function. Edited by Barbara A. Seaton
(Robert D. Burgoyne) 91

Platelets: A practical Approach. Edited by Steve P. Watson and Kalwant S. Authi
(Alan T. Nurden) 92

Phospholipid Transfer Proteins: Emerging Roles in Vesicle Trafficking, Signal Transduction, and Metabolic Regulation. By V. A. Bankaitis, M. R. Fry, R. T. Cartee and S. Kagiwada
(Karel W. A. Wirtz) 93

Practical Approach Series on CD-Rom. Edited by D. Rickwood and B. D. Hanes
(Victor B. Cockcroft) 94

Calender of events 95

Volume 14 Number 3 July–September 1997

Contents

Review

What studies of fusion peptides tell us about viral envelope glycoprotein-mediated membrane fusion (Review)
Stewart R. Durell, Isabelle Martin, Jean-Marie Ruysschaert, Yechiel Shai and Robert Bluementhal 97

Papers

A novel family of channel-forming, autotransporting, bacterial virulence factors
Brian J. Loveless and Milton H. Saier Jr 113

Phosphatidylserine exposure and aminophospholipid translocase activity in Rh-deficient erythrocytes
Danielle Geldwerth, Baya Cherif-Zahar, Dominique Helley, Pierre Gane, Jean-Marie Freyssinet, Yves Colin, Philippe F. Devaux and Jean-Pierre Cartron 125

Assignment of the human serotonin 1F receptor gene (HTR1F) to the short term of chromosome 3 (3p13-p14.1)
Jeanette Erdmann, Daphne Shimron-Abarbanell, Viji Shridhar, David I. Smith, Peter Propping and Markus M. Nöthen 133

Aggregation, fusion and aqueous content release from liposomes induced by lysozyme derivatives: effect on the lytic activity
Guillermo F. Vechetti, Beatriz F. de Arcuri, Elena Posse, José L. R. Arrondo and Roberto D. Morero 137

Membrane proteins at the interface of erythrocytes fused by treatment with polyethylene glycol
Margorzata Litwa, Alison M. Maggs, Jin Cheng-zhi, Wang Wei-dong, K. Pedley, G. H. Beaven and W. B. Gratzer 143

Book reviews

Membrane Protein Assembly. Edited by Gunnar von Heijne
(Jenny Broome-Smith) 149

Protein Structure Prediction: A Practical Approach. Edited by M. J. E. Sternberg
(Stephen J. Perkins) 150

Electromanipulation of Cells. Edited by Ulrich Zimmermann and G. A. Neil
(Jack A. Lucy) 151

Calender of events 153

Books received 154

Volume 14 Number 4 October – December 1997

Contents

Reviews

The structure and function of band 3 (AE1): recent developments (Review)
Michael J. A. Tanner 155

Assigning functions to residues in the acetylcholine receptor channel region (Review)
Cecilia Bouzat and Francisco J. Barrantes 167

Papers

The relationship between the binding of ATP and calcium to annexin IV. Effect of nucleotide on the calcium-dependent interaction of annexin with phosphatidylserine
J. Bandorowicz-Pikula, A. Wrzosek, P. Makowski and S. Pikula 179

The effect of sterols on structures formed in the gel/subgel phase state of dipalmitoylphosphatidylcholine bilayers
H. W. Meyer, K. Semmler and P. J. Quinn 187

Electric field pulses induce reversible shape transformation of human erythrocytes
Monika M. M. Henszen, Michael Weske, Stephan Schwarz, Cees W. M. Haest and Bernhard Deuticke 195

Ca^{2+} Oscillations induced by fibroblast growth factor 2 in *Xenopus* oocytes expressing fibroblast growth factor receptors
Michel Malot, Edith Browaeys-Poly, Franck Fournier, Katia Cailliau and Jean Pierre Vilain 205

Book reviews

Protein sorting and targeting. Edited by Stella M. Hurtley (Bor Luen Tang) 211

Antisense oligonucleotides and drug action. Edited by Robert B. Raffa and Frank Porreca (C. Ian Ragan) 212

An information resource. Edited by Robert A. Meyers (Jack A. Lucy) 212

Molecular Membrane Traffic. Edited by Wanjin Hong (R. G. Parton) 213

Calendar of events 215
